

# 2060 Florida Transportation Plan

Florida Transportation Commission  
November 5, 2010

Kathleen Neill  
Office of Policy Planning  
Florida Department of Transportation

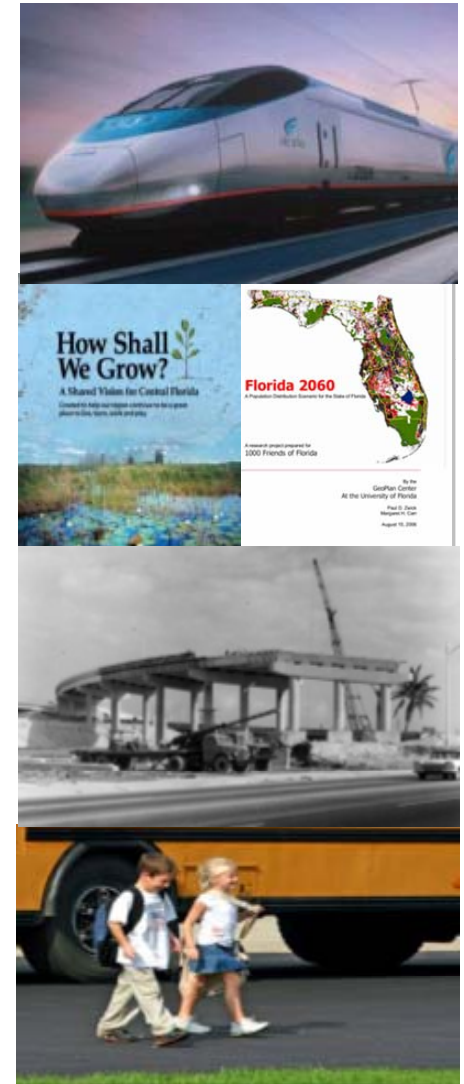

# What Is the Florida Transportation Plan?

- Florida's long range transportation plan
- A plan for all of Florida
- Provides policy framework for expenditure of state and federal transportation funds
- Provides policy guidance for all transportation partners

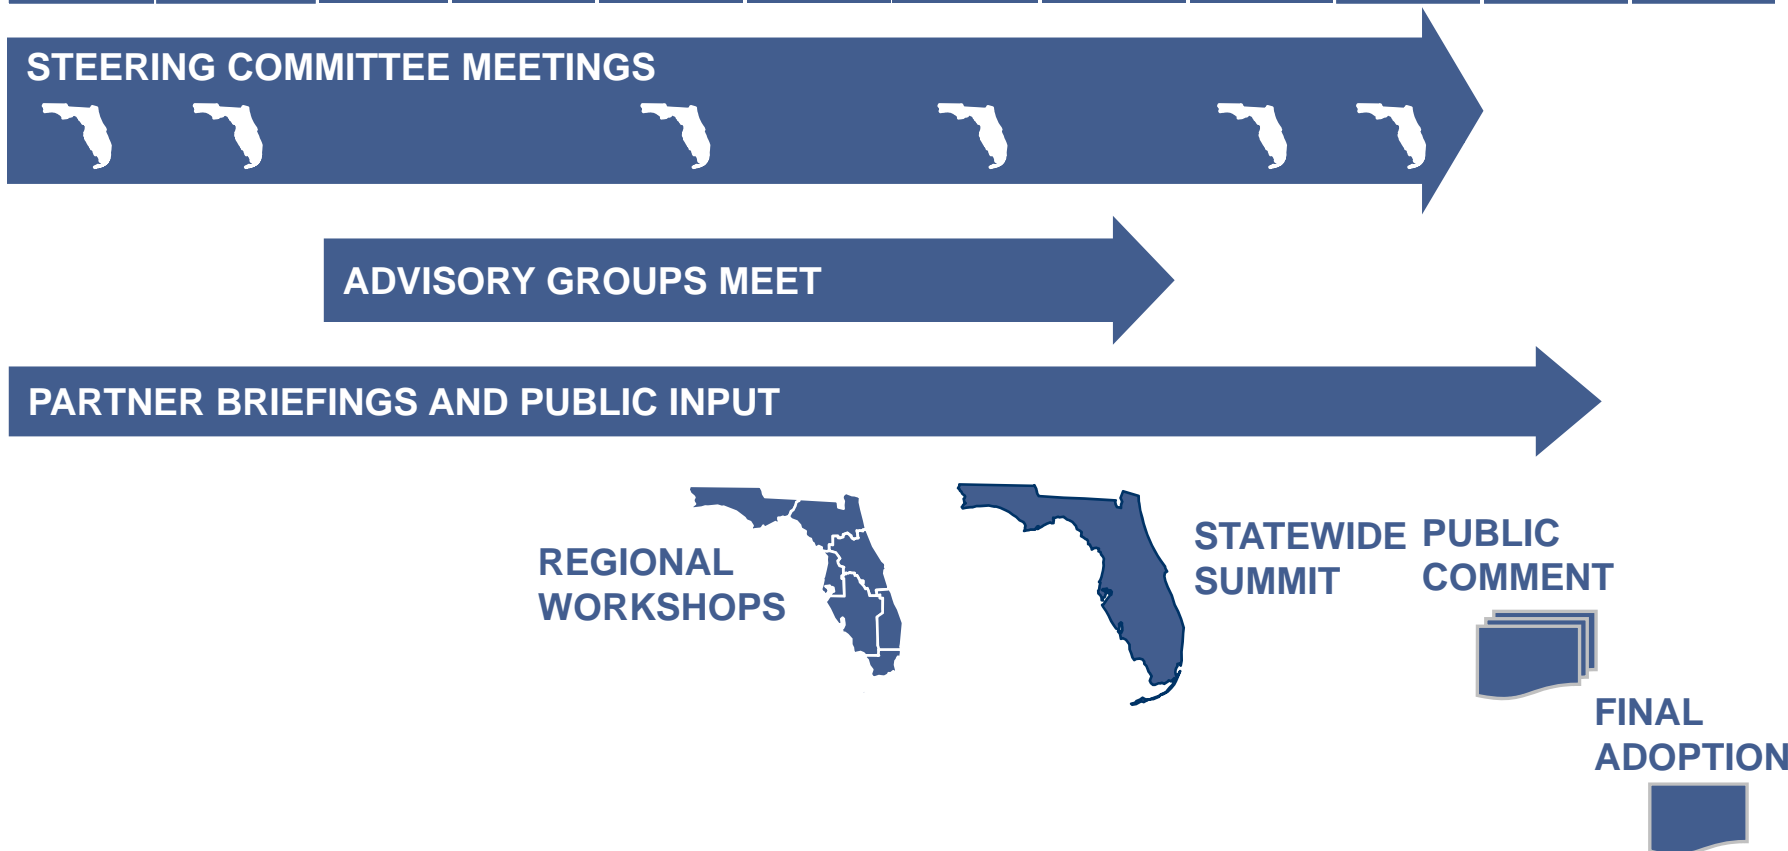

# Why 2060?

- Purpose
  - Respond to emerging challenges
  - Develop long range vision, goals, objectives
  - Build consensus among partners for implementation
- Why 2060?
  - Focus attention on tomorrow's opportunities
  - Correspond to partner plans with long term outlooks
  - Help shape a better transportation system for future generations

# Where Are We?

Issues Identification		Vision and Goals				Objectives and Strategies			Plan Adoption		
Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec

# Draft 2060 FTP Goal Structure

## Florida in 2060

- Economic Competitiveness
- Community Livability
- Environmental Stewardship

## Florida's Transportation System

- Safety and Security
- Maintenance and Operations
- Mobility and Connectivity

# Highlights of 2060 FTP Objectives

- Continue emphasis on
  - Safety, security, emergency response
  - Infrastructure maintenance
  - Environmental stewardship
  - Transportation choices for residents, visitors, businesses
- Increase emphasis on
  - Creating livable communities
  - Reducing energy consumption, improving air quality, reducing greenhouse gas emissions
  - Maximizing use of existing infrastructure
  - Reducing fragmentation: transportation governance and decision making

# Highlights of 2060 FTP Objectives

- Strategic investments to support Florida's economic competitiveness
  - Interconnected statewide rail/public transportation systems
  - Connectivity to established, emerging employment centers
  - Florida's role as an international gateway for trade, visitors
  - Global leadership in air and space transportation systems
  - New generation of infrastructure, vehicles, fuels, technology

# Governance and Coordination: Agencies and Jurisdictions

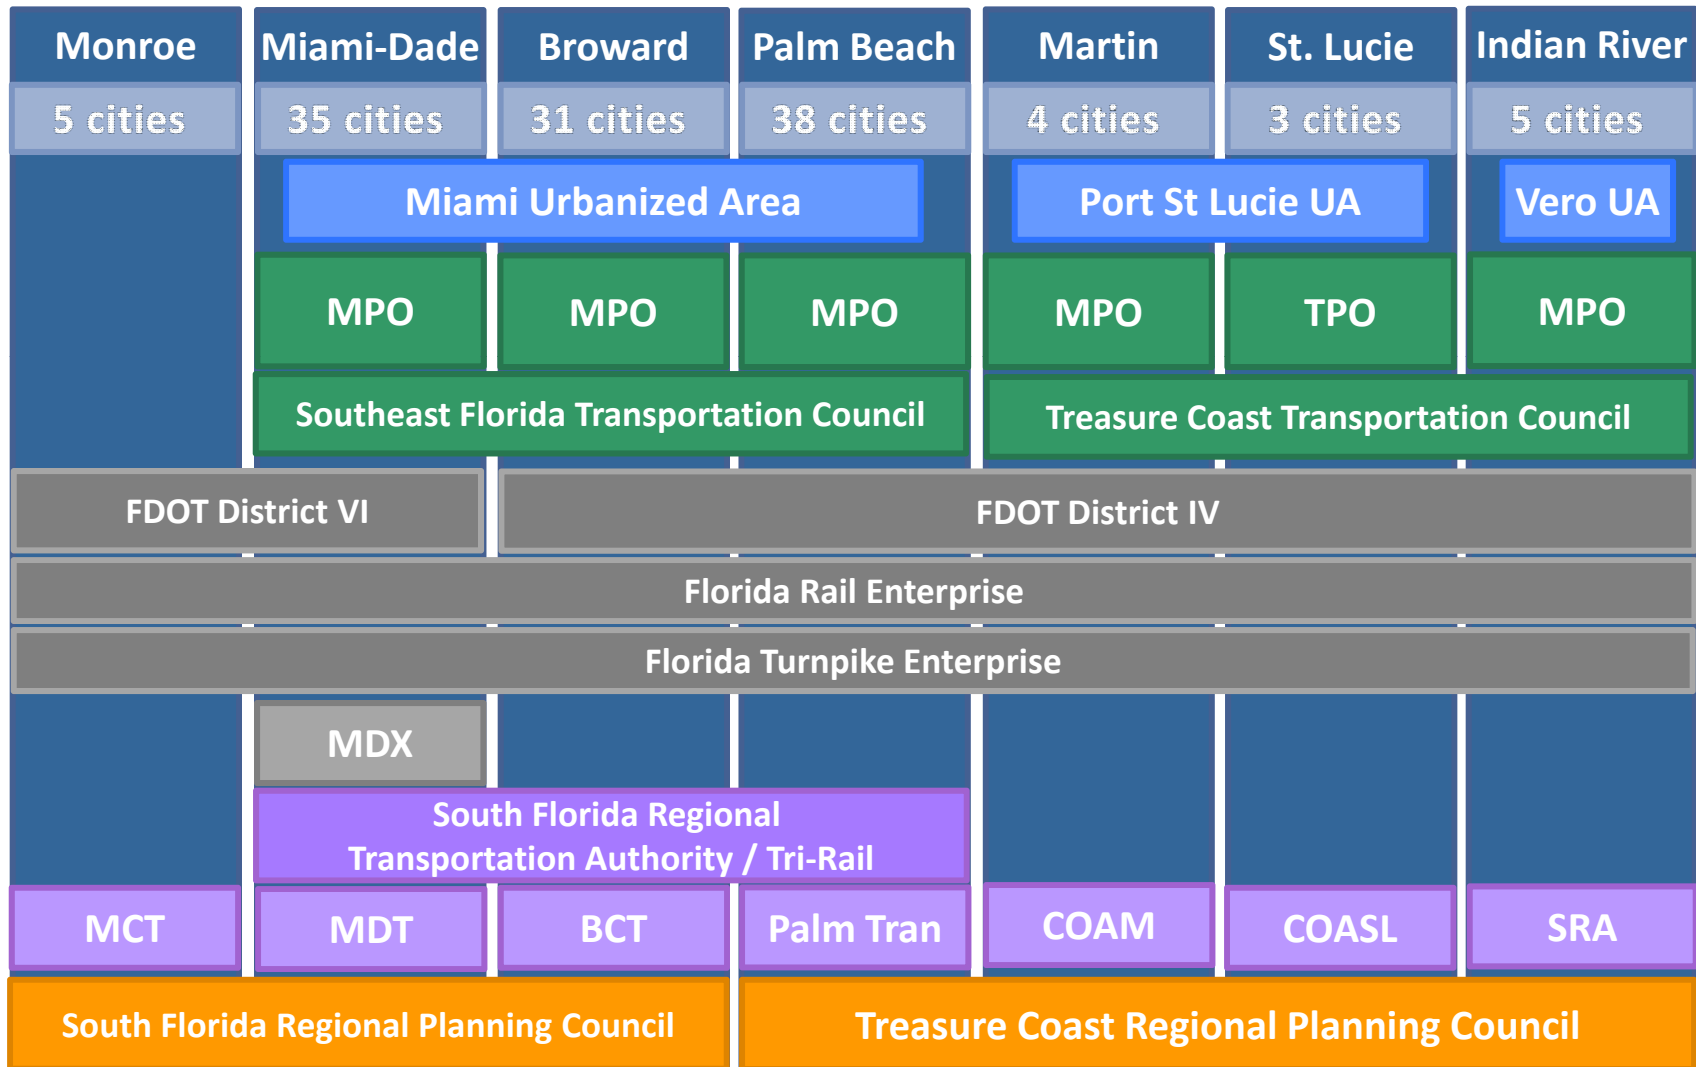

- 411** Municipalities
- 67** Counties
- 26** Metropolitan planning organizations
- 28** Fixed route transit systems
- 11** Regional planning councils
- 11** Transportation authorities
- 7** FDOT districts and **2** enterprises

County and Municipal, Census Metropolitan Statistical Areas, Regional Planning Councils, FDEP Ecosystem Management Districts, Water Management Districts, FDOT Districts, Statutorily created transportation authorities, regional visioning initiatives

# Regional Governance: Southeast Florida

# 21<sup>st</sup> Century Governance Model

- Create statewide vision
  - Integrate transportation with other issues; provide geographic perspective on future development and investment
  - Linking regional visions to accomplish statewide goals and build Florida's megaregions
- Enhance regional coordination and decision making
  - Transition Florida's MPO structure to focus on regional and metropolitan scale transportation issues
  - Strengthen regional transportation planning and priority setting in rural areas
  - Develop a governance structure to promote integrated regional transit
  - Strengthen regional coordination among modal partners and operating agencies

# Investment Needs

- Growth in travel demand and cost of transportation improvements have exceeded Florida's ability to provide acceptable service
- Available estimates point to significant funding shortfalls
  - Unfunded needs on the Strategic Intermodal System (SIS): \$53 billion (2006 dollars); to be updated in 2011
  - SIS unfunded needs do not include estimates for most state highways, locally owned roads, all local transit systems, small aviation facilities, small seaports, local waterways.
- Comprehensive, consistent estimates of non-SIS needs do not exist

# 21st Century Investment Framework

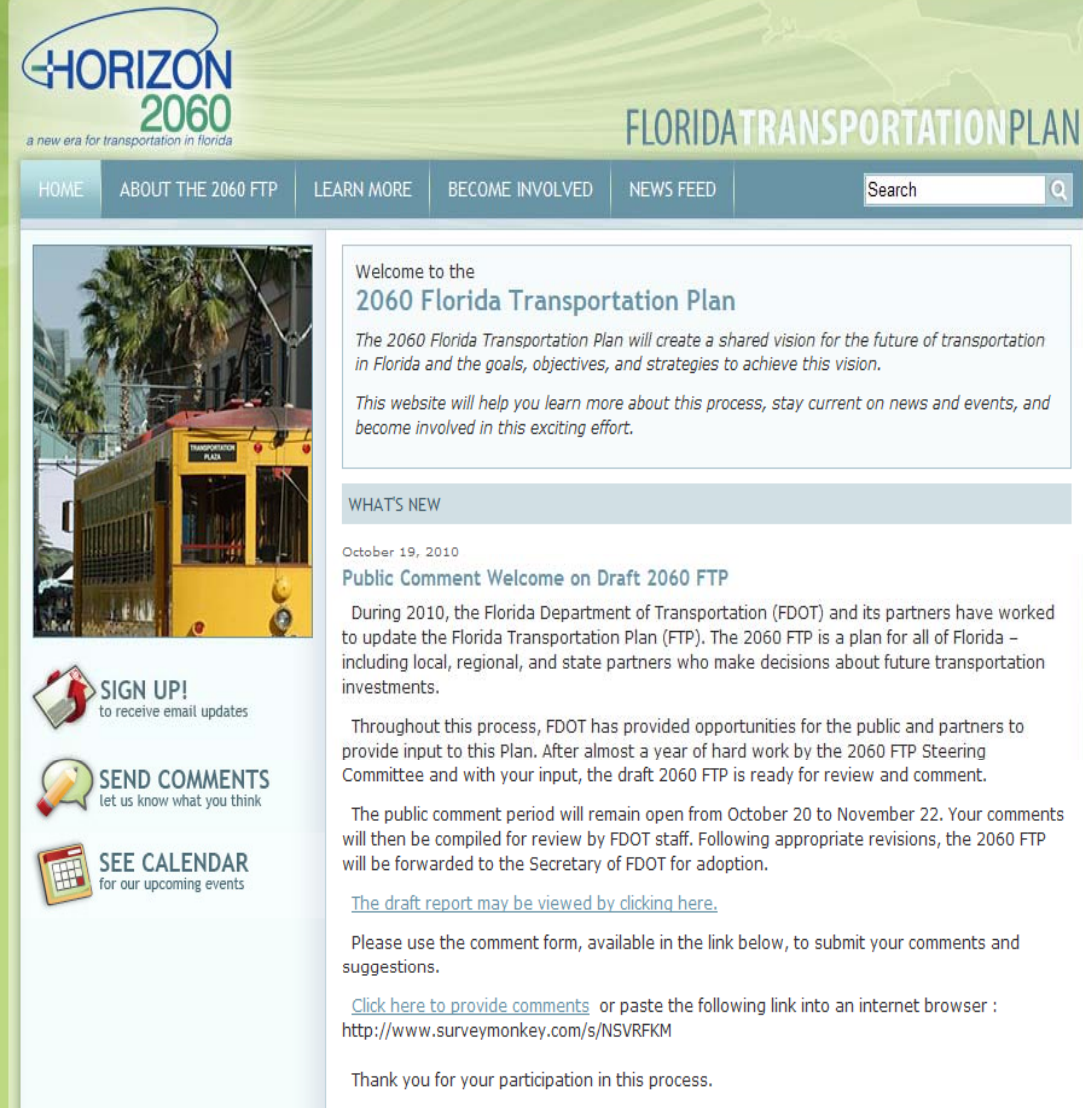

- Systematically identify transportation needs, revenues and shortfalls across all modes
- Pursue greater choices for raising and investing sustainable local, regional and state transportation resources
- Establish clear priorities for future transportation investments
- Reduce the cost of providing and operating transportation facilities

# Implementing, Measuring, and Tracking Progress

- Outreach to partners
  - Align other statewide, regional, local transportation and related plans to reflect 2060 FTP goals and objectives
  - Establish short range objectives and actions
  - Developing performance measures to report and track progress
- Document and report progress implementing this plan
- Periodically convene all partners to review progress

Welcome to the  
**2060 Florida Transportation Plan**

*The 2060 Florida Transportation Plan will create a shared vision for the future of transportation in Florida and the goals, objectives, and strategies to achieve this vision.*

*This website will help you learn more about this process, stay current on news and events, and become involved in this exciting effort.*

WHAT'S NEW

October 19, 2010

**Public Comment Welcome on Draft 2060 FTP**

During 2010, the Florida Department of Transportation (FDOT) and its partners have worked to update the Florida Transportation Plan (FTP). The 2060 FTP is a plan for all of Florida – including local, regional, and state partners who make decisions about future transportation investments.

Throughout this process, FDOT has provided opportunities for the public and partners to provide input to this Plan. After almost a year of hard work by the 2060 FTP Steering Committee and with your input, the draft 2060 FTP is ready for review and comment.

The public comment period will remain open from October 20 to November 22. Your comments will then be compiled for review by FDOT staff. Following appropriate revisions, the 2060 FTP will be forwarded to the Secretary of FDOT for adoption.
