Examining the Blueprint for Surface Transportation Investment and Reform

Joung H. Lee

Associate Director for Finance and Business Development

American Association of State Highway and Transportation Officials

Deputy Director

AASHTO Center for Excellence in Project Finance

SESSION OBJECTIVES

- To provide an update on state spending levels
- To discuss the state of current surface transportation funding, including Federal Highway Trust Fund conditions
- To examine overall surface transportation investment needs
- To provide AASHTO's funding framework for the future
- To give the latest update on current program extension and surface transportation reauthorization

STATE SPENDING PICTURE

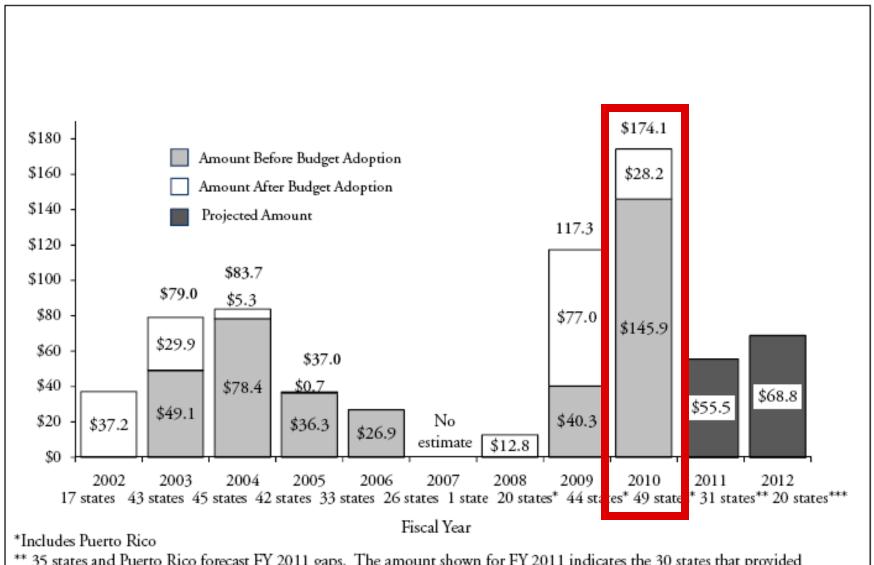

Figure 1. State Budget Gaps: FY 2002-FY 2012 (projected)

^{** 35} states and Puerto Rico forecast FY 2011 gaps. The amount shown for FY 2011 indicates the 30 states that provided gap estimates.

CURRENT TRENDS AND CHALLENGES

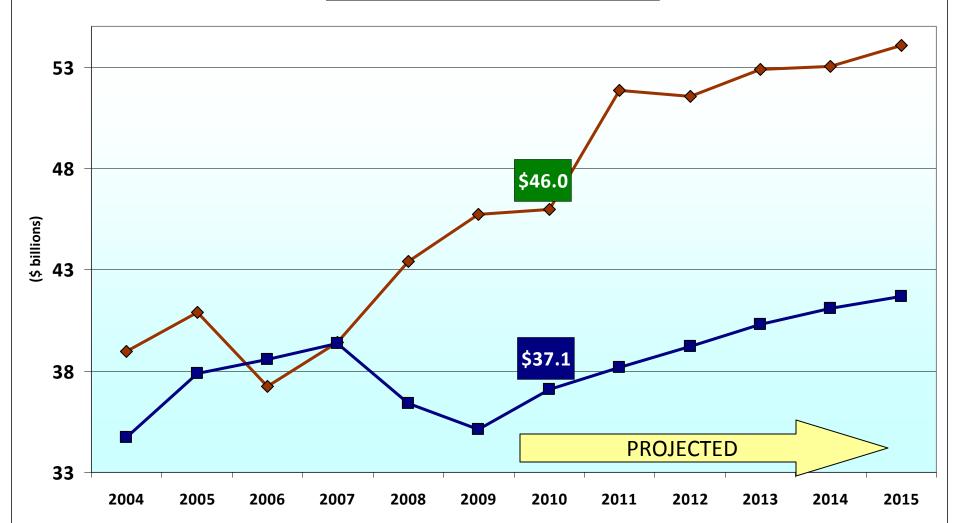

Truck, Buses, and Trailer Retail Tax Receipts

(1957-2009)

Highway Trust Fund: Receipts and Outlays Discrepancy

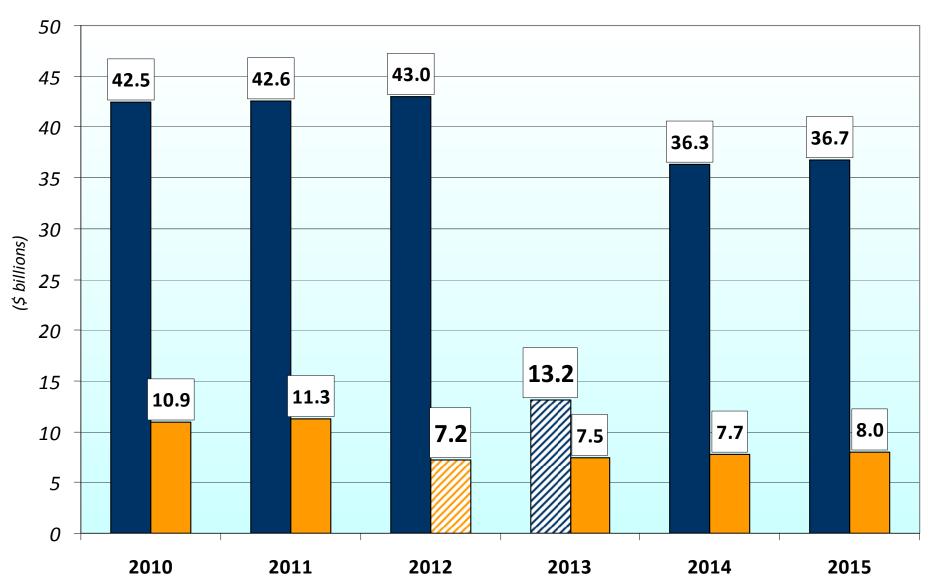

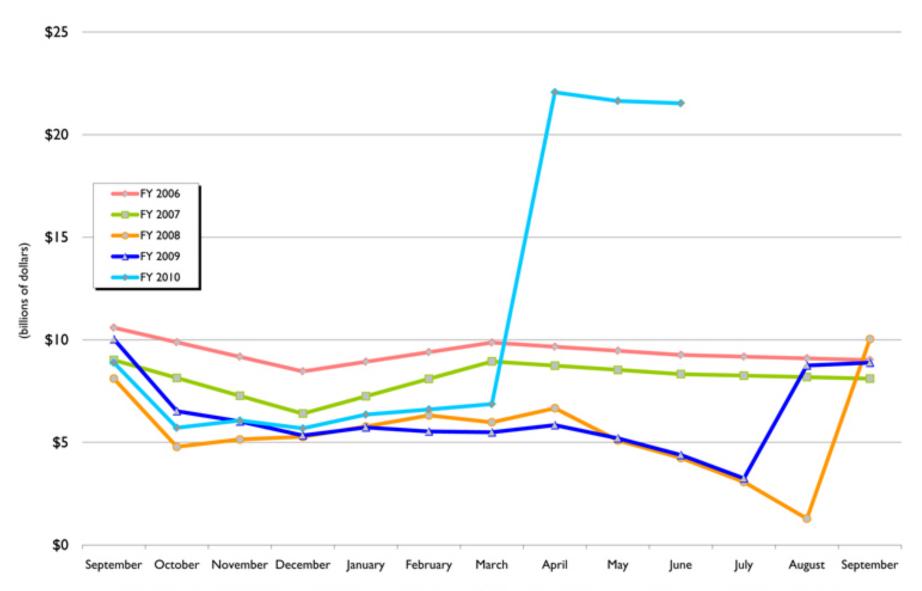

Note: Excludes \$8.017 billion transfer from General Fund to Highway Account of HTF in September 2008; \$7 billion transfer from General Fund to Highway Account of HTF in August 2009; \$19.5 billion transfer from General Fund to Highway and Mass Transit Accounts of HTF in March 2010.

Estimation of Reduced Program Spending Beyond 2011

Highway Account Balance

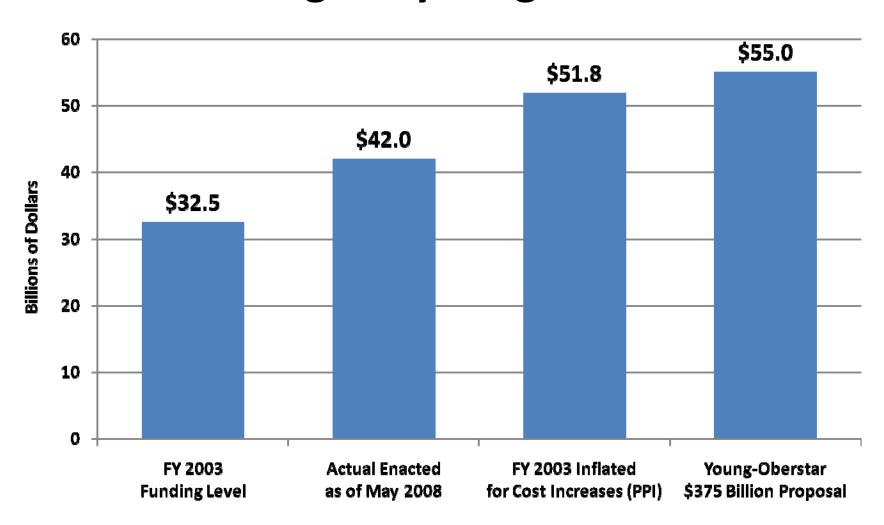

Ending balance for FY 2008 includes \$8.017 billion transferred from the General Fund in September 2008 pursuant to Public Law 110-318.

Ending balance for FY 2009 includes \$7 billion transferred from the General Fund in August pursuant to Public Law 111-46.

POLICY AND REVENUE STUDY COMMISSION

Report of the

National Surface Transportation Policy and Revenue Study Commission

Transportation for Tomorrow

December 2007

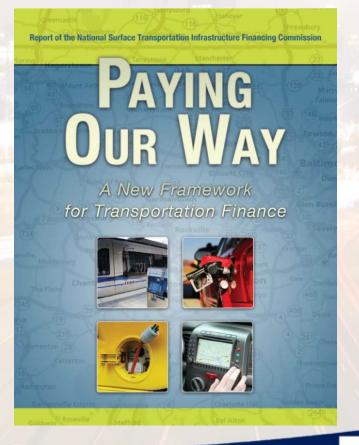

- We need to spend \$225 to \$340 billion per year on average through 2055
 - Highway
 - Bridge
 - Public transit
 - Freight rail
 - Intercity passenger rail
- Currently spending is less than \$90 billion per year

NATIONAL SURFACE TRANSPORTATION INFRASTRUCTURE FINANCING COMMISSION

Needs

- Nationally, meeting only about 1/3 of roughly \$200 billion required each year to maintain and improve the system
- At federal level, also meeting only about 1/3 of needs we face a \$400 billion federal funding gap over next 6 years under current policies and revenues

EXHIBIT ES-1: AVERAGE ANNUAL CAPITAL NEEDS AND GAP ESTIMATES, ALL LEVELS OF GOVERNMENT, 2008-35 (in 2008 dollars)

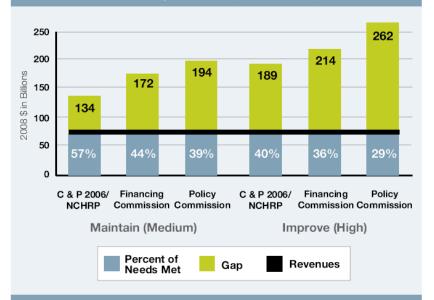

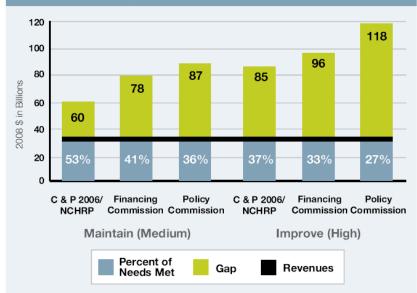

EXHIBIT ES-2: AVERAGE ANNUAL CAPITAL NEEDS AND GAP ESTIMATES, FEDERAL GOVERNMENT, 2008-35 (in 2008 dollars)

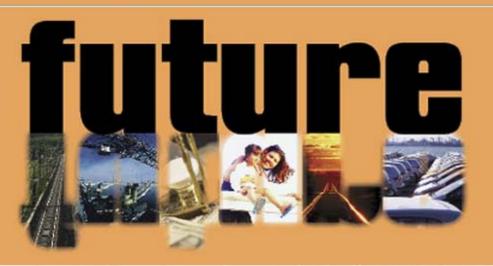

AASHTO's Vastly Expanded Funding Proposal

TRANSPORTATION—Are We There Yet?

Creating America's Future
Transportation System—2009

22

Legislative Recommendations

- Between 2010 and 2015, in order to invest in a robust surface transportation program to meet significant national needs, Congress should fund a \$565 billion multimodal program comprised of:
 - Highway program funded at \$375 billion (2015 level = \$75 billion)
 - Transit program funded at \$100 billion (2015 level = \$20.8 billion)
 - Freight program funded at \$40 billion
 (2015 level = \$9.2 billion)
 - Intercity passenger rail program funded at \$50 billion

(2015 level = \$11.7 billion)

Legislative Recommendations

- Federal government must continue to play a strong role in investing and maintaining an integrated and multimodal national surface transportation system
- States and local governments should be provided with maximum flexibility to use federal revenues from existing core sources to meet systemic transportation needs
- Strong accountability measures must accompany substantially increased funding to ensure resources are spent as efficiently and effectively as possible
- We need to restore purchasing power by making sure the impact of inflation on commodities and construction costs must be addressed in setting investment levels

- Adopt a long-range approach to funding the surface transportation system that gradually moves away from dependence on the current motor fuels tax to a distance-based direct user fee such as a fee on vehicle miles traveled
- Assure that any climate change legislation that creates a new revenue source, either through a carbon tax or cap-and-trade, provides substantial funding for transportation
- Eliminate or drastically limit earmarking in federal transportation programs

AASHTO Recommendations on Bridges

- Incorporate as part of program reform all eligible activities and transferability provisions that exist under:
 - Interstate Maintenance (IM)
 - National Highway System (NHS)
 - Bridge Program
- Permit expanded transferability of federal funds when tied to performance management and measures that demonstrate where the greatest needs are
- Provide additional flexibility in the Highway Bridge Program and remove unnecessary environmental restrictions in bridge maintenance and replacement activities
- Continue "off-system bridge" 15% set aside
- Expand eligibility of preventive maintenance

Proposed Program Funding Levels to Restore Purchasing Power

Potential Program Name	2010	2011	2012	2013	2014	2015	TOTAL

CURRENT STATE OF PLAY

29

Where We Are Now

- <u>15 September 2008:</u> \$8.017 billion General Fund transfer to the Highway Trust Fund
- 7 August 2009: \$7 billion General Fund transfer to the Highway Trust Fund
- 30 September 2009: SAFETEA-LU expired
- 1 March 2010: Highway Trust Fund shutdown for two days
- 18 March 2010: \$19.5 billion General Fund transfer to the Highway Trust Fund
- 31 December 2010: Current SAFETEA-LU extension expires
- <u>Fiscal Year 2012</u>: Highway Trust Fund projected to become insolvent

30

Hiring Incentives to Restore Employment (HIRE) Act – HR 2847

- Signed into law on 18 March 2010
- Fifth Extension of SAFETEA-LU
 - Extends SAFETEA-LU at pre-rescission FY 2009 spending level until 31 Dec 2010
 - Credits Highway Trust Fund with \$19.5 billion in foregone interest payments
 - Allows Highway Trust Fund to accrue interest
 - Fuel tax credit for exempt fleet to be covered by the General Fund
 - Restores the \$8.7 billion contract authority rescission contained in SAFETEA-LU
- Build America Bonds expansion to cover other qualified tax credit bonds

- President's Announcement on Labor Day
 - "Renewing and Expanding America's Roads, Railways, and Runways"
 - Long-term vision with \$50 billion front-loaded in the first year
 - Rebuild 150,000 miles of roads
 - Construct and maintain 4,000 miles of rail
 - Rehabilitate or reconstruct 150 miles of runway

Current State of Play

- President's Announcement on Labor Day
 - Infrastructure Bank to leverage federal dollars and focus on investments of national and regional significance
 - Integration of high-speed rail into the surface transportation program
 - Streamlining, modernizing, and prioritizing surface transportation investments, consolidating more than 100 different programs and focusing on using performance measurement and "race-to-the-top" style competitive pressures
 - Expanding investments in areas like safety, environmental sustainability, economic competitiveness, and livability

Current State of Play

- Details on the Obama Administration plans not yet available
 - Legislative strategy
 - Duration/timing
 - Revenue source
 - Funding split
 - Policy details
- But the President is now fully engaged in surface transportation reauthorization

Deficit Commission

- Gradually increase gas tax to fund transportation spending
 - Raise gas tax gradually by 15 cents beginning in 2013
 - Dedicate funds toward fully funding the transportation trust funds and therefore eliminating the need for further general fund bailouts
- Move Transportation Trust Fund spending to mandatory
- Limit transportation spending to existing revenue collections

Current State of Play

- Broader variables: economic conditions including unemployment levels, and deficit-spending appetite
- What to make of the composition of the 112th Congress?
- Any action should not reverse the progress made through the stimulus legislation
- It is important to pass the six-year authorization bill soon, as state DOTs and contractors depend on long-term investment time horizons
